

TECHNICAL GUIDE HERITAGE 2800

A+

Our Heritage 2800 system is outstanding in performance and great looks, with an unbeatable choice of colour from stock. It is best in class for energy and security, achieving U-values as low as 0.9 W/m²K and PAS24 accreditation. The unique design of this system also ensures unrivalled wind resistance, water tightness and air permeability.

Its' elegance and symmetry makes Heritage 2800 the most attractive system on the market, complementing modern and period properties alike. It leads with 30 colourways in stock, complete with matching trims, cills and ancillaries.

Weather Performance

The Heritage 2800 multi-functional weatherseal is at the cutting edge of modern design and material technology. The unique design ensures unrivalled weather performance and provides a significant reduction in the everyday strain placed on hardware, which in turn increases the lifespan of the window. The weatherseal is also welded at the corners providing a continuous seal further improving the insulating properties of the product.

Security

The Heritage 2800 window and door system is fully compatible with all standard security hardware, with both windows and doors achieving enhanced security standard PAS 24.

Insulation

The Heritage 2800 window and door system far exceeds all requirements of not only today's Building Regulations but also future revisions.
